THAT PITTSBURG FAILURE.

Chat From the Capital—Hanging of Leroy—New York Notes—The Grain Yield.

## The Pittsburgh Failure.

PITTSBURG, January 16.—Pittsburgh banks have decreased their holdings with Oliver Brothers largely within a year, much of the paper being paid voluntarily by the firm. In one bank the firm reduced its paper \$100,000 within the year. Considering the extent of the firm, but comparatively a small amount of weight falls upon Pittsburgh shoulders. One of the contributory causes of the suspension is doubtless the heavy loss made by the firm on a contract for pipe which it made with a mining company in California. This pipe was made and shipped to California and all condemned. Unsecured debts of the firm comprise, it is said, about one-half of its liabilities. As secured creditors are largely interested in local banks and the banks generally are willing to agree to an extension, there is no doubt of obtaining the assent of unsecured creditors. The Woods Run and South Side mills of the firm are all in operation to-day. At the Woods Run mill a full set of hands were at work at reduced wages. On the South Side many of those who refused to work at the reduction offered went back to work this morning.

## Capital Chops.

WASHINGTON, January 16.—At a recent meeting of the House committee on military affairs, Representative Slocum was authorized to call up in the House at the first opportunity the first bill introduced in the Senate at the present Congress providing for placing General Grant on the retired list. At a meeting of the committee to-day a motion authorizing him to call up the bill passed the Senate on the 14th inst., and having for its object the retirement of General Grant was lost 8 to 2. Those opposing the proposition were Rosecrans, Slocum, Cogswell, Wolcott, Murray, Connolly, Lyman and Bayne. Those favoring Grant were Steele and the Senate committee on pensions reported adversely the bill to grant a pension of \$30 per month to Emma De Long, widow of the late Lieutenant Commander of the Marine Corps. The report of the majority merely recommends an indefinite postponement of the bill.

## Hanged.

SAN FRANCISCO, Cal., January 16.—Wright Levey was hanged to-day at 12:50. On August 13th, 1883, he decoyed Nicholas Skerrett, an aged capitalist whom he had personally known for a long time, into one of Skerrett's empty houses on the plea that he wanted to rent it. While inside he told Skerrett he would kill him unless he gave a check for a large sum of money. Skerrett refused. Leroy then knocked him down, seized him by the throat and while continuing his threats choked him to death. He observed a firm demeanor on the scaffold and asserted his innocence to the last. His neck was broken in the fall.

## Grain Yield.

WASHINGTON, January 16.—The annual report of the department of agriculture now in press makes the record of corn production for 1884, 1,705,000,000 bushels, wheat nearly 518,000,000, and oats 885,000,000. These aggregates are the largest ever recorded. The rate of yield is 25.8 bushels of corn, 13.0 of wheat and 27.4 of oats. These are the figures for the permanent record.

## Hocking Valley Troubles.

COLUMBUS, January 16.—The Senate, to-day, adopted the House joint resolution for the appointment of a legislative committee of investigation into the condition of affairs in Hocking Valley, and make a report by February 15th. The resolution is to make inquiry as to the causes of the strike.

## Died.

PARIS, January 16.—Norbert Ballerich, the man who was wounded in three places by M. Duc, one of the editors of *Cri du Peuple*, the other night, when he and his brother Charles invaded the newspaper office in search of vengeance, died at the hospital to-day.

## Cisco's Failure.

NEW YORK, January 16.—At John J. Cisco's, this morning, Mr. Foote was delivering securities to customers who had them on deposit with the firm.

When the Stock Exchange opened this morning a desperate attempt was made by bears to depress prices, based upon the Cisco failure. The attempt did not succeed and it became evident that the market was being strongly supported. Careful, conscientious and conservative members of the exchange say trouble need not be feared from the Cisco failure alone. The firm was not a speculative one and its obligations to members of the exchange are small. Mr. Cisco would say nothing to-day and the assignee stated that an inventory of the assets will be made and a statement issued. Mr. Dospassor, counsel for the firm, said he believed the assets would equal the liabilities dollar for dollar.

Up to a late hour this afternoon there were no failures growing out of the Cisco suspension. The accepted reason for Cisco's assignment now is that the daughters of the late Jno. G. Cisco, co-heirs with Cisco of the present firm, insist upon having the estate liquidated, and withdrawing their funds from the firm, said he believed the assets would equal the liabilities dollar for dollar.

Gotham Gossip. New York, January 16.—A large public meeting of unemployed workmen is called for Tuesday night, when addresses will be made by leading merchants on the situation. It is thought by careful calculation that nearly 6,000 men are idle in the city and suburbs. In Redpath's sugar refinery about 100 men are employed out of 600, and all mill factories are running with 200 or 300 men less than usual.

It is reported that the Bank of Montreal has arranged a combination of cotton manufacturers, and that this alliance of all mills will be lasting. An advance in price is at once anticipated to about 15 per cent. above the lowest point during the depression.

## Lost at Sea.

LONDON, January 16.—Grave fears are entertained for the safety of the packet steamer *Admiral Morrison*, plying between Dublin and Holyhead, ten hours over due at the latter port. There was a severe storm last night, and it is feared she has been lost. The Dublin agent of the line telegraphs that the *Admiral Morrison* had but few passengers.
